Hi,

The climate crisis we find ourselves in leaves no time for indecision. The science is clear. The time for bold climate action is NOW. We have a tiny window of opportunity to change America's course, and here at 1Sky, we're ready to mobilize a broad base of support across all sectors and communities in this country. We're not stopping until we see the change in federal policy we need, and to win this fight, everyone needs to get involved.

If you are willing and able to learn new skills and strategies, enjoy working

under pressure and deadlines, have excellent written and verbal communication skills and are committed to taking action on climate change. . . Then we want YOU!

Be an essential part of our growing team of approximately 20 staff in the central DC office. 1Sky is an intentionally collaborative campaign designed to tap the collective power of a diverse set of allies (including business leaders, people of faith, health organizations and economic justice advocates) determined to push for a bold shift in federal climate policy.
