

Washington Spring Internship #29

Asia America Initiative

Hi Springies

See the organization below that is looking for an intern. It's a small organization that includes the Director, his asst and interns. The great thing about it—the Director, Al Santoli, gives interns lots of autonomy to work on their own areas of interest as long as they fall within the purview of what the organization is doing. If you are interested, please email your cover letter and resume directly to Mr. Santoli. Please cc me on your application email. Thanks. - sl

Sara Lombardo
Senior Program Manager
UC Davis Washington Program

Dear Ms. Lombardo:

I am looking for one or two interns for Spring semester to assist at Asia America Initiative. We are a modest non-profit organization that specializes in conflict resolution and peace mediation through social and economic development in areas of high poverty and armed conflict. The central focus of our programs is education, integrated with health and economic development projects. Our field model program is in the Philippines, as an example for similar communities in other countries. I am looking for students who have a focus on education, foreign policy, health, economics and communications. People who are not shy about fundraising and who have computer skills are very welcome. We have just launched a multi-media communications strategy involving MySpace, Facebook, blogging and music videos. We utilize music, theater and arts as our unique form of healing child victims of war and terror. It is a very unique model of inter-cultural communication and citizen diplomacy. Please see our website at www.asiaamerica.org. Thank you. I can be contacted at santoli@asiaamerica.org.

Albert Santoli

President
